Phoenix is definitely easier and cheaper.

Thanks for contacting Roberto. Let's wait to see what he says. Then we will know how much to request from Ivan/Laurie/Gretchen.

It would be nice to go to Hopi but I think it makes sense to meet in Phoenix again. I didn't get the impression that the people coming from Hopi found it to be a hassle – they seemed to appreciate the excuse to come to the city. It is logistically a lot easier for us and makes it more likely that we can both go. I think that having both of us meet with the village representatives in person is more important for building the relationship than actually visiting the village. (But if having it all is an option, then I think we should both go to Hopi.)

When this first came up, I told both Ivan and Laurie an estimated cost, a lot depends on if we are going to Phoenix and it's just one night or if we would actually go to Hopi and that would be more expensive, but I believe I told them it would be around \$800-1000 (I found one of my previous TAs for traveling to Phoenix). But I can send that info again to Ivan. Laurie may have already submitted it as a potential.

Ivan's statement seems to imply that ORC would pay part. I assumed from his email that Roberto was planning to pay for one of us. If Roberto can't pay for both of us, maybe ORC can pay to send the second attorney.

We need to check with Roberto first to see if he can cover both, one, or neither of us.

For reference, the last trip cost \$860 (including airfare, hotel, transportation, and per diem).

The one last thing that just occurred to me is to inquire of your program clients if Enforcement Division might be able to pay with some of the expense. We can always ask, right ☺

Kimby and Janet, can you put together the expected cost for one or both of you to go and get that to me, Laurie and Gretchen?

Ivan and Laurie,

You had asked about travel plans. Enforcement anticipates that Janet or I may need to make another trip to Arizona to meet with representatives from Hopi villages and the Hopi Tribe. The trip would be in early July (see Roberto's email below). No details have been worked out yet. We will keep you informed.

I talked to Hillary about this last week and I currently have a VM into Lionel's inbox. I haven't heard a peep and I'm a little concerned. I also recommended to Thanne that she, perhaps you or Janet, and I take a trip to Hopi to further discuss this case and work and talk separately w/Ivan. I'm guessing we would go out in early July after the 4<sup>th</sup>. What do you guys think?

Hillary, Patrick, and Roberto,

Have you heard anything more from Hopi?

It was my understanding that the villages met at the end of April and were going to get back to us about how they want to proceed with addressing their drinking water violations in the long term and whether they will work with the Tribe or work independently.

We were also waiting to hear back from Lionel at the end of May about the updated HAMP schedule and the Tribe's involvement with the village drinking water systems. We need to know whether the Tribe will voluntarily sign on to the AOCs and whether the Tribe will contribute to interim measures and/or long term solutions.

Please let Janet and I know the status of the villages and what the next steps are.

Thank you,

Kimby

Hello Lionel,

Thanks for meeting with our team this past Wednesday. We very much appreciated the updates you provided to the group regarding the Tribe's progress on working with the Villages and developing the HAMP schedule. Per the meeting, you noted that by the end of May 2017 the Tribe should have a more definitive schedule on the construction and completion of the HAMP. You also noted that the Tribe continues to work with the Villages to potentially enter into MOUs to allow the Tribe act on behalf of the Villages (perhaps 3 of the 4 Villages). Please continue to keep us informed on any progress related to this work and feel free to contact me if you have any questions/concerns.

Thanks again.
